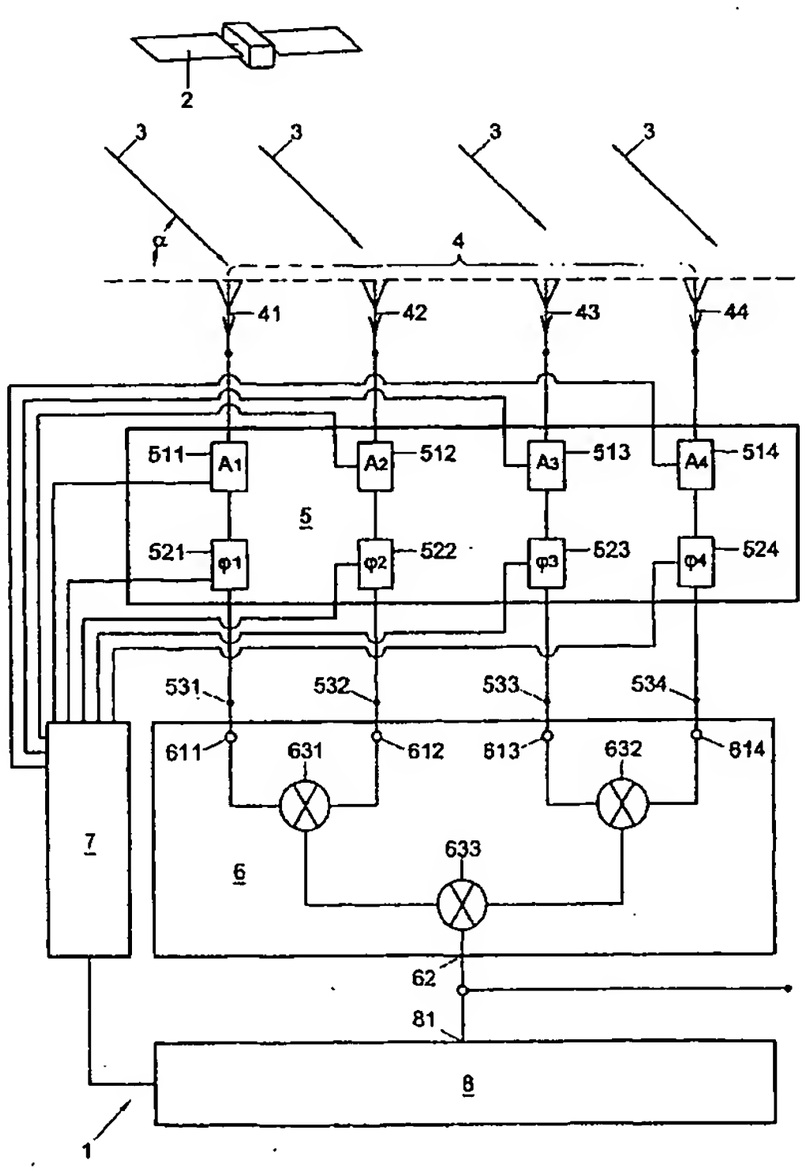
(54) Title: METHOD FOR OPTIMISING AT LEAST ONE PROPERTY OF A SATELLITE SYSTEM, OPTIMISATION DEVICE FOR A SATELLITE SYSTEM, SATELLITE RECEIVER AND SATELLITE SYSTEM



(57) Abstract: A method for optimising at least one property of a satellite system. The satellite system comprises a satellite provided with a transmitter for transmitting an satellite signal which represents data. The satellite is further provided with a satellite receiver for receiving said satellite signal. The method comprises receiving at said satellite receiver the satellite signal; determining from the satellite signal said data; checking the data for data errors; and changing said at least one property of the satellite system if a result of said checking satisfies a predetermined criterion.
